Name: $\qquad$
Complete the exit slip and hand it in as you leave the class.
After today's work you know how to identify three types of graphs. Identify each of the following types of graphs:

1. $\qquad$

2. $\qquad$

3. $\qquad$

Name: $\qquad$
Complete the following problems. Put them in the baset on my desk on your way out of the classroom.

1. Write the equation of a line perpendicular to line $y=3 x+2$ and passes through the point $(1,-1)$
2. Write the equation of a line parallel to $3 x+y=5$ and passes through the point $(-9,3)$
